## POST OFFICE.

F. S. STOVER, P. M. Office hours: Open from 9 A. M. until 4 P. M. On Sundays from 1 to 2 P. M. Mail closes going east at 11 A. M.

St. Johns, Thursday, May 14.

## LOCAL NEWS.

Everybody is busy farming.

P. J. Hill, of Houck's Tanks, was in the city on Wednesday.

Lew Lynch, of Navajo, paid a visit to the county seat the first of the week.

Sheriff Hubbell is in the Navajo country looking after evil doers.

John Swinburne and Thos. Brady made a flying trip to this city the first of this week.

Serafin Apodaca, county assessor, is making his regular assessment trip through the county.

The Navajo, St. Johns and Springerville Stage line has a new advertisement in this issue.

The next regular meeting of the Apache County Stock Growers Association will be held at St. Johns, August 5, 1885.

Mr. Chas. Kinnear, the "noblest Roman of them all," has been in the city for several days a guest of Sir. Walter Darling.

Complaint was filed in the County Court, May 11, by Emma Rachel Hixon, of Winslow, against Albert W. Hixon, for divorce.

The Hon. Luther Martin, member of the Territorial Assembly from Apache County, is in from Springerville. We hope to see him in our sanctum before his departure.

The almost daily showers and warm sun have given the country a most beautiful appearance. This is a good time for proposed settlers to see our lovely home land.

The contract for the transportation of government freight from Holbrook to Fort Apache has been awarded to Grant & Co., of Albuquerque, for \$1.48 per hundred pounds.

Mr. Earnest Tee, Supervisor of Apache county, was in town several days since our last issue. Mr. Tee is always heartily welcomed in St. Johns by all our people.

Angus M. Cannon, A. M. Musser and one Watson were sentenced at Salt Lake City on May 9th, to six months in the penitentiary and to pay a fine of \$300 each. Judge Zane must have been more than good natured on that day.

In compliance with Sec. 50 of the School Laws of Arizona, an election for Trustees must be held in each District School house, on the last Saturday in June of each year. Our citizens will bear this in mind and be prepared to vote for the best men.

Geo. A. McCarter, formerly editor of the Apache Chief, left St. Johns on Sunday last for Los Angeles, California. Mr. McCarter will probably be engaged in business directory advertising, and intends visiting the entire states of California and Oregon before his return to Kansas.

In the County Court, before Hon. W. M. Rudd, Judge, the following persons have been summoned to appear on May 25th as jurymen in the case of the Territory of Arizona against Fritz Jeffe charged with assault with intent to kill:

Tiofilo Duran, Benigno Lopez, Chas. Hoyer, Miguel Duran, Faustino Lopez, Cruz Rubi, Lupe Garcia, Jose Saveria, H. Banta, W. Darling, W. W. Wall, W. H. Sherwood, James Porter, Alex. Pechner, James B. Patterson, Geo. A. McCarter, Frank Clark and H. Gaston.

The Arizona Live Stock Association favored the appointment of Theodore F. White, their President, as General Inspector for the Territory, giving him the power to appoint local deputies at the recommendation of the County Stock Association. Governor Tridell made the appointment. Some such plan as this was necessary in order to faithfully promote the cattle interest in the whole Territory. One general head to govern and direct is infinitely better than a dozen independent organizations to work at random. Certainly the movements of the various companies in the Territory will work more harmoniously.

**Gila Monster.**—As District Attorney Guttererson was examining his onion patch about sunrise yesterday morning, in the hope of finding here and there one sufficiently developed to strengthen an appetite for his morning meal, he was attracted by a peculiar hissing and low barking sounds near him. As he had not rested well doing the night he supposed the sounds might have come from noises in the head, produced by cold or the inflammatory condition of the tympanum. With but slight success he pursued his patch-work; all the while the hissing, barking and thumping continued, annoying him more or less. Just as he had concluded that Wednesday was not a good day for onions he turned to go into the house his eyes fell upon one of the most horrid or hideous looking reptiles that the wildest imagination could portray. It did not seem to be over twenty to twenty-four inches in length, while the head, which was shaped something like a crocodile, took up nearly one-third its length, and was covered with scales of different hues, some of which were of deepest crimson, others were of dingy orange, while the predominant color was of a bronze or podophyllin green, shades mostly used by decorators of the costly establishments of art jewelers and hon ton pharmacutists. The eyes of this unmitigated horror was set in the point of two flexible tubes each two or a half to three inches long by nearly one half inch in diameter, and were located on the side of the head mid-way between the horny snout and the base of the skull. The cornea of pea-green was set in a ball of flame. Its one ear set high upon the centre of its head, and was shaped like the shell of a snail. Adown its back or cone, a line of coarse quill like bristles, stood out in fearful defiance. It had flippers just at the point where its frightful head joined to the body; beneath each it enfolded or carried an arm or leg by which it could propel itself on the land and move with ease. The hinder portion of its body was divided one-third of the way towards the head; one section seemed to partake of the nature of the marine, while the other showed evident signs of the carnivorous or cat nature. The terminal point of the hairy side showed the tiger caudal appendage, while the finny finish of the tail section was incontrovertible evidence that it is no alouch in crossing creeks or rivers. Guttererson, it is said, took in the situation in one twentieth part of the time our informant was detailing the harrowing facts. He skipped, and that will account for the notice in our paper of to-day of an attractive riverside residence for sale cheap.

**Telegraphic Communication.**—Every day that we are without telegraphic communication with the great system that encircles the globe; that peeps into every nook and corner not only of the United States, but in all places where civilization has opened up an abiding place for the intelligent and cultivated.

Educated humanity can no longer be satisfied with isolation from the present knowledge of facts that give life to the soul. Bright men will no longer seek a home in the dark corners of the continent. All the impulses among mankind lead to enlightenment as well as life and liberty. In view of these unquestionable truths the people of St. Johns must move at once as one body, one spirit, and connect themselves with the great electric current that places them on the same vantage ground of the most favored people. We have among us men of wealth, and of enterprise, who can see the present and fortell the future advantage of telegraphic communication with the world. We have a large laboring class who are ready to contribute of their means whether it be of labor or money, and we have every inducement that will work to the benefit of the public at large, excepting only the one leader—it is for him we cry to-day. Get to the front and make yourself the Alexander of Apache County, and the Napoleon of St. Johns. Why stand ye all the day idle, when our necessities are crying to you day after day, and night after night maketh known the people's wants. Come, gentlemen, gird up your loins, if you have any loins, and if you haven't, gird up anything else that will enable you to hold your wind. Our hearts desire and prayer to you is, that you commence to plant the telegraph poles. If you don't work to this end it will soon be said of you and your city of Magnificent Distance—Illium fuit.

**A New Mug-Wump.**—Our townsman Don Antonio Gonzales is made entirely happy in the increase of fully one hundred percent of his "Buffy family" this season. His perambulations through the main avenues of our town indicates that he has fallen heir to not less than 50,000 dollars, all in mutton and wool. A resident of St. Johns must be pretty well fixed that presumes to say, since he has seen his lambs, "How are you now old boy." It's good morning Mr. Gonzales!" or nothing.

The Commissioners decision in the bogus Peralta Land claim in Southern Arizona fell upon the scoundrels engaged in the fraud with sickening effect. Rivas jumped his boarding house, and now the "eating boss" is compelled to charge to profit and loss account the sum total of \$80, all that is left of 4,000, 000 acres of land.

## HOLBROOK NOTES.

(El Sylvan, in Albuquerque Journal.)  
Warren & Dewey have closed out and are now private citizens once more.

A. and B. Schuster have bought the F. A. Breed & Co's property, and will soon open out with a stock of general merchandise.

Howard Perkins has purchased the Bethel property and is fixing it up in nice shape for his folks when he gets there, and rumor says that time is not far off.

The county assessor, Serafin Apodaca, is around stirring up the boys and doing his work in good shape. He is making a fair, equitable assessment and collecting the taxes as they should be.

The capital stock of the Holbrook Irrigating Canal, Dam and Bridge company has all been taken up at home, and the success of the matter is assured. Energetic men are at the head and are pushing it for what it is worth.

The cattle of the Aztec Cattle Company, will when on our hills rival in number at least the far famed bulls of Bashan, have not yet arrived, but one of the members of the company has come to stop until things are started up. His name is E. A. King, and he's a very nice man, if he is from Boston.

## TERRITORIAL ITEMS.

(Phoenix Herald.)  
The Orion Era reaches us this week on the half-shell. "Corky" times, these, for the followers of Joe Smith.

New Mexico claims 700,000 head of cattle. Arizona has not yet that many, but her grazing grounds are capable of sustaining ten times the number now pastured on them.

Prescott is excited, General Sheridan visited Whipple Barracks on the 5th inst.

It looks as if the "slate" made up by certain would-be Democratic leaders in Arizona, was already badly busted.

(Mohave County Miner.)  
From the present outlook the mining camps of Mohave county bid fair to be the liveliest in the Territory during the summer. The ore is here and all that we need is more men to take it out.

There are a great many miners in the Wallapai district at the present time who are making from \$5 to \$10 per day chloriding; some who are making from \$10 to \$25 per day; and still others who are making as high as \$50 per day.

By far the richest ore now being taken out in the neighborhood of Stockton Hill is that from the Little Chief, owned by John Kennedy. From all accounts he will soon have a car load of ore that will sample from \$700 to \$1200 per ton. This mine has already produced \$75,000.

(Southwestern Stockman.)  
The San Pedro round-up is completed. About 10,000 more cattle were on the range this year than last.

J. I. Scott and A. A. Bass, have been arrested in Yavapai county for stealing stock. The former is a prominent man and late candidate for probate Judge, and the latter is an ex-constable. Their arrest is considered a direct blow at the politicians of the territory.

An Indian thief was recently killed by a white settler in the northern part of the territory, and now the Indians threaten retaliation, causing the settlers in that region to temporarily abandon their homes. It's a safe bet that the defunct brave was one of those "peaceable" Indians to whom agents will persist in granting passes to leave their reservations.

[Tucson Weekly Citizen.]

E. O. Kennedy has been appointed postmaster at Golden.

There is more than double the amount of freight for merchants of Tucson being received here as compared with the same date last year.

At the breaking out of the war between the Mexicans and the Yaquis, the individual members of the tribe employed in the mines and at all classes of work throughout Sonora and Arizona at once stopped work and returned to the Yaqui country to take up arms in defense of their country.

The people of Flagstaff evidently intend to keep clean, as their local paper announces the important event of the erection of a bath-house at that place. The establishment of a soap house and scrubbing brush factory is all that is necessary to complete the arrangement for entire cleanliness. Pay will boom the new enterprise, no doubt.

[Flagstaff Champion.]

The Flagstaff post office will be made a money order office July 1st.

We are to have a Methodist church erected in Flagstaff this summer.

The Mineral Belt charge of electricity has not yet been applied. Batteries are looked for.

The distribution of the Acts of the Legislative Assembly will be made within a few weeks. They are all in type now, but in-as-much as they must go to Washington for approval first, a little necessary delay will occur.

## F. T. LEWIS,

## CONFECTIONER.

—AND—
